Chris,

Consistent with previous work, a work plan or equivalent scope of work will need to be submitted to the Tribal Natural Resource Department for review and approval. Tribal Staff onsite presence will again be a provision of work. This will require an access agreement from the Kozak's for the Kozak Property for any and all work. Tribal Staff are unavailable August 21-25, and August 28. Dates will need to be adjusted to accommodate the Tribal Staff onsite presence requirement.

Kristen Hanson

Environmental Response Program Coordinator

Lac du Flambeau Tribal Natural Resource Department

FYI – Dave Larsen of REI let me know that he has tentatively scheduled the following tasks for August 22 and 23 (and possibly 24):

- Groundwater profiling using a Geoprobe (for monitoring well location/depth determinations)
- Groundwater sampling from the site's monitoring well network

Let me know if you have questions. Larsen is on vacation until August 2, so any questions on specifics might have to wait until then.

We are committed to service excellence.
